THUNDERWORD

Volume 4 Issue10 September 2015

CAUTION : DO NOT READ THIS NEWSLETTER

This Newsletter contains information relative to you, as a member of The Lehigh Valley Thunderbird Club! Items like club events, local area cruises, some technical information, social stuff and information regarding hosting the 2016 ITC convention. If you chose to read on, remember, don't ask questions and don't show up for anything because then you might be accused of participating in the club!

Yes, you are right, this is Vince, your Club President! I'd like to thank Tom Hollenbach for taking over the Newsletter while I was weighed down with "work related to working"! So now that the load has subsided, I'm back! You might notice the format of THUNDERWORD has changed a little. The change reflects a more modern approach to maintaining the tradition of having a car club. We will be discussing the changes in upcoming issues, but we do need to talk about it! Two major changes that have occurred lately are the drop in club membership and the lack of club support. Recently we held our Annual Nazareth Day Car Show which we do to raise funds for three organizations, The Nazareth Food Bank, Lehigh Valley Pediatric Cancer Foundation and Our Club. Since I have been a member, we have always divided the profits from the car show three ways as I indicated, to various local charities or causes and to benefit our club members. This is the sixth year, to my knowledge we will be donating to the Nazareth Food Bank and the second year to the Pediatric Cancer Foundation. All local charities in our communities comprising Lehigh Valley. So, did you register your car for the show? Did you provide a Gift Basket donation for the basket raffle? Both items impact the amount, we as a club, can donate. While the weather did not cooperate with us this year, we had approximately 120 pre-registrations and 24 gift baskets. We ended up with about 120 cars the day of the show, which was not too bad considering the rain in the morning. BUT not many club members registered or showed for the event. We even maintain the $10.00 registration fee for members regardless of when you registered, with the intent of getting more of you out to the show. So where were you? I would really like to know why you, as a member, did not come out to the show? Now, I know there are things that come up, medical issues and maybe even you have not had the Thunderbird out in years, but you can still come over to say "Hi". When I first joined the club, I mentioned I was really looking forward to meeting everyone, but I have not so far. So, I am going to be calling you all over the next several months. I really want to know what we can do, as a club, to get you out to some of our functions! So when you see my number on your Caller Id, please answer and lets talk! OK, now read on!

President's Message

Happy September Fellow Thunderbirders!

This season has just flown by! It feels like our annual pizza party was yesterday and here we are coming to the end of the car show season. Have you had your car out yet? Only a couple more months before we will be preparing the cars for their "winter nap". Well, there is still a lot of things we can do, shows to go to and 2016 ITC Convention ideas to explore.

Our 3rd Annual Bath Community Day Car Show will be held on Saturday, October 3rd. Volunteers will be needed to handle registration, vehicle parking, 50/50 ticket sales and this year, we will be selling tickets on 3 different baskets, a car detail basket, a "booze" basket and a BBQ basket.. Please contact me, Tom Hollenbach, Walt Fries Jr., or Sally Ingraham to sign up. A sign up sheet will be available at our next General Meeting, on Tuesday September 1st. Speaking of which, our next General Meeting will be our Annual Mini Golf Outing at Lucky Strokes. We will meet there at 6:00 pm, have a bite to eat and then get out onto the course for some fun. Come on out and join the group for some laughs!

October will start our membership renewal drive. The October Newsletter will contain the renewal form to use, when sending in your dues. The Board has elected to keep the renewal fee to $25.00 for 2016. Please do so promptly so we can plan our club activities for 2016.

Also, it is time for Elections as well! The Vice-President position and Secretary position are up for re-election. If Interested, please let me know and I will place your name on the ballot. Think about it and decide. The ballot will be placed in the November Newsletter.

Hopefully I will see you at one of the September events! **Keep well!** *Vince*

Message from the Board

As September approaches, there are still a lot of activities to do! Our annual mini-golf outing is Tuesday, September 1st at Lucky Strokes. September 18th to 20th is the annual Fall Fling in Bird-In-Hand, PA. Then the Bath Community Day Car Show on October 3rd, in Bath, PA, followed by the Block and Tackle Car Show on Saturday, October 10th and then the North Catty Car Show on Sunday, October 11th. Come on out and Show your car….registration forms are in this newsletter.

On Saturday, September 12th, club members will be participating in the Nazareth Day Parade. This will be great exposure for the club and the Thunderbirds.

Also, Club Elections for Vice-President and Secretary are coming up this year. Job descriptions will be posted in next months newsletter. Please review the responsibilities of the position and if you would like to become an officer of the club, let Vince or Tom know.

Also, we are starting preparations for our Christmas Party in December. We will be asking for volunteers to form a Christmas Party Committee. The location is booked, but there are still decisions and activity planning to do, so let us know if you want to help out.

See you at one of the upcoming events!

The 22nd ITC Convention

Waukesha, Wisconsin

Well, the 22nd ITC Convention is in the books and "Awesome" was the best word I can think of to describe it! Eleven Lehigh Valley Thunderbird Club Members made the trip to Wisconsin to represent our club. This is only the third convention I have attended, but it was the most relaxing and enjoyable one to date. If you missed it, you missed a fun time. I believe all toll, they had 68 members register and about 130 people in attendance. Here are some pictures from the event.

Day two activities began with a "Chapter Bull Session" hosted by Walt Fries. A lively discussion was had by various chapter members sharing some activities they do within their club to attract and maintain members. After that, we headed to the water front in Milwaukee , to the Discovery Museum. As usual, Walt was acting up, as captured in this picture.

After touring the Discovery Museum, we boarded a couple pontoon boats for a tour of the river front and local lake shore line. Milwaukee converted many of it's factories to condos and apartments along the river with very attractive parks and small shopping areas in between. Many of us came away with a very different impression of the city.

A trip to the Harley-Davidson Museum

Harley's answer to the Cam-An ?

How Much is Your 2002-2005 Thunderbird Worth?

How Much Is My 2002-2005 Thunderbird Worth? That's a question a lot of Thunderbird owners would like the answer to. And for some owners the answer is 'priceless.' For an American car barely 13 years old, the question of value is an elusive one. Many owners won't put a dollar value on the enjoyment their cars have brought them, or the fun they've had driving them, showing them and just owning them. Some people bought new 2002-2005 Thunderbirds with the specific intent of holding them for future resale, putting few if any miles on them, and storing them in climate-controlled garages. So far, those who bought new Thunderbirds as an investment haven't done very well. After factoring in the cost of insurance, maintenance, storage and other incidental costs however, it's been a money losing proposition. According to conceptcarz.com, based on 123 sales, the average collector car auction sales price for 2002-2005 Thunderbirds is $ 21,735. However, a few early 2014 sales have seen selling prices for extremely low-mileage 2002 Thunderbirds as high as $40,000-42,000.

Current market values for 2002-2005 Thunderbirds vary widely depending on condition and mileage. The limited edition Thunderbird 'feature cars,' including the 2002 Neiman-Marcus (200 built), the 2003 James Bond '007' (700 built), the 2004 'Pacific Coast Roadster' (1,000 built), and the 2005 '50th Anniversary' Special Edition 'Cashmere' (1,500 built) tend to bring higher prices due to their relative low production numbers and collectibility, but for the most part, none of the 'Feature Cars' have greatly outpaced comparable low-mileage standard production 'Retros' in value.

Opinions as to the potential future values of the 'Retrobird' also vary widely. Some predict that the 2002-2005 Thunderbird is destined for status as a 'classic' along with the original 1955-1957 Thunderbird. Others think it is relatively undistinguished, and was produced in too large a volume to ever become a high-priced collectible. In all fairness, the 2002-2005 Thunderbird does have some characteristics that set it apart from more common, mass-produced American cars, and certainly from T-Birds produced between 1958-1997. It is the first two-seat convertible Thunderbird produced since the iconic 1957 Thunderbird. Its production numbers are also comparable to the 'Baby Bird,' with just 68,095 produced in four model years (not including the 1999 Concept show cars, the 2003 Supercharged Concept or the few additional 2002-2005 T-Birds destined for the Henry Ford Museum and never offered for sale to the general public). While a production run of 68,000+ vehicles is not extremely low as compared to say the 1956-57 Lincoln Continental Mark ll, with just under 3,000 built, it is low compared to say the Ford Mustang, which saw production of nearly 200,000 units for the 2005 model year alone.

As of mid-2015, values for used 2002-2005 Thunderbirds range from a low of around $ 6,500 for high-mileage, poor condition or salvage-title cars, to well over $ 30,000 for some very low-mileage examples in pristine overall condition The majority of private-party sales, and sales by dealers to retail buyers are in the $ 10,000-25,000 range, and again are determined by mileage, condition and maintenance or accident history.

There are a number of sources for Thunderbird values including the NADA 'Black Book,' and various specialty collector car price guides such as those published by Hagerty and others. As with nearly every special interest or 'collector' car, condition has a tremendous impact on market value. Condition is very subjective, and is based on a number of factors including the quality of paint, chrome, interior and mechanical systems and originality.

The factor that is perhaps the most difficult to predict or forecast into the future is just how long it will take for the 2002-2005 Thunderbird to reach the 'peak' of collectible value. While the finest and rarest collector cars do tend to increase in value steadily over time, prices can fall or remain stagnant based on supply and demand and general economic conditions.

Based on the price history of say the 1955-1957 Thunderbird, it may be another 20-30 years or more before the 2002-2005 Thunderbird brings many multiples of its original sales price. Some of the finest examples of fully-restored, ground-up restorations of '55-'57 T-Birds have sold for well over $ 100,000, however, many decent unrestored but original examples can be bought for far less, $ 25,000-50,000 depending on condition. Attempting to predict the future values of 2002-2005 Thunderbirds based on current prices for 1955-1957 Thunderbirds however, is mere speculation. There are simply too many factors and variables to estimate with any accuracy, the potential future market value of this or any other car.

It's probably safe to say that low-mileage, well-maintained 2002-2005 Thunderbirds are near their low point in terms of market value, however, prices could drop further before stabilizing and eventually increasing in value. It's almost certain that original 'Retros' in good condition will be worth more in say 20 years than they are today, but trying to predict how much more is nearly impossible.
