THUNDERWORD

AUGUST 2015

2015 NAZARETH DAYS

The day started with one helacious thunderstorm, when I got to Nazareth Borough park it had just finished raining. We started to set up for the show and in just a little over 45 minutes the show was ready to open. It was a dreary day for a while the cars came in very slowly and by 12 noon we had 101 cars which is 100 cars less than we normally have. Now Nazareth Days 2015 is over and it was an unusual day because of how the cars dribbled in very slowly and the heat of the day and the humidity that was almost unbearable.

Then there was some unusual things that went on a car had to be roll backed off of the show field, I had the first time use of almost unlimited battery power with the generator that Pres. Luppino so generously supplied, and then I could use the AC adaptor that I purchased some time ago and was unable to use because we never had enough extension cords to reach all the way out to where we take the pictures.

Saw some cars that attended for the first time, we had a Luguna Chevrolet that I do not remember before and a Saleen Mustang, also a 2016 Mustang (ha ha)

Then there were some cars missing, I did not take my T-Bird because it has a tendency to leak in heavy rain, there was a a Honeydew yellow 1966 Bird Missing and also a Desert Sky Blue 2003 also a 1963 Rose Beige also a 1967 Pewter Mist and a 1962 Black and a when you have taken pictures at this show for as long as it has run you tend to notice little things like that, not to mention that they are also friends of mine. That was just a few, Can you name them?

So Nazareth Days 2015 is in the books now we turn our attention to those of use who are going to the ITC Convention, then Das Awkscht Fescht, the Fall Fling and our Bath Show also three or four other shows and cruises that we usually attend as a club.

AND LAST BUT NOT LEAST THANKS TO ALL OF YOU WHO HELPED

President's Message

Hello Everyone!

By the time you read this, our Huge Annual Nazareth Day Car Show will be "in the books"! I hope everyone who attended the show had a great time! If you actually worked the Car Show, you received a voucher for ten dollars that you can either "cash in" or use it toward your cost of our annual Christmas Party. Those who work the Bath Show in October will be eligible for a voucher too and the same conditions apply regarding cashing it in or using it toward the party. The Board elected to do this for those who work the show to express the Club's appreciation for taking the time to help out.

We will let you know the results of the Car Show and how much we will be donating to the Nazareth Food Bank and the Pediatric Cancer Center at the next General Meeting and via the THUNDERWORD.

Next Big Event is the ITC Convention in Wisconsin. I will be leaving the Sunday before the convention, trailering my Thunderbird out to the event. I am looking forward to the convention to meet up with some friends and I understand the Wisconsin Club throws a great event. It will provide some insight to me for hosting the Convention next year. I hope to see some of you there.

There are a lot more shows yet to attend in our area, so please come out and join in on the fun!

See you soon,

Vince Luppino President LVTC

A Message from the Board

To all LVTC members = We are down in membership from 62 at a high last year, to a low this year at 47. We need a real good idea to get some people back on our rolls in LVTC.

We have called former members and those that have not renewed from last year and got nowhere. DOES ANYONE HAVE A BETTER IDEA ?

This club needs members and we need them soon. It seems that the same eight to ten members do most everything for the club.

The BOD are contemplating making changes to get more members, out to our functions and make it worthwhile for your involvement.

Did You Know These Facts About how the T-Bird got it's Name ?

The **Thunderbird** is a legendary creature in certain North American indigenous peoples' history and culture. It is considered a supernatural bird of power and strength. It is especially important, and frequently depicted, in the art, songs and oral histories of many Pacific Northwest Coast cultures, and is found in various forms among the peoples of the American Southwest, Great Lakes, and Great Plains

The Thunderbird's name comes from the common belief that the beating of its enormous wings causes thunder and stirs the wind. The Lakota name for the thunderbird is *Wakį□nyąn*, from *wakhąn*, meaning "sacred", and *kiyą*, meaning "winged". The Kwakwaka'wakw have many names for the Thunderbird, and the Nuu-chah-nulth (Nootka) called it *Kw-Uhnx-Wa*. The Ojibwa word for a thunderbird that is closely associated with thunder is *animikii*, while large thunderous birds are known as *binesi*.

Across many North American indigenous cultures, the Thunderbird carries many of the same characteristics. It is described as a large bird, capable of creating storms and thundering while it flies. Clouds are pulled together by its wingbeats, the sound of thunder made by its wings clapping, sheet lightning the light flashing from its eyes when it blinks, and individual lightning bolts made by the glowing snakes that it carries around with it. In masks, it is depicted as multi-colored, with two curling horns, and, often, teeth within its beak.

How the International Thunderbird Club got Started

The First Convention

The first Convention in Syracuse really set the tone for things to come. It featured tours of local sites and attractions, cruises to local hangouts, the Concours on Saturday morning and, of course, the Awards Banquet on Saturday evening. This basic schedule served as the model for all subsequent conventions but was greatly expanded as the years rolled by. By 2002, the convention schedule was expanded to a full week in Watkins Glen, NY. Even though not everyone was able, or even wanted, to attend all days, it was still an option for the many members who made it a vacation week.

Pictures from Nazareth Days

Just some random shots of some of the cars we had come to our Nazareth Days show, thanks to Dennis Crago for taking these and sending them to me. We had 111 cars according to our Pres. Vince Luppino..

Like I have already said I didn't think this one would fly because of the bad storm that hit just before the show was to go on.

We had some really nice cars come to our show. Had a guy call me Sunday morning (Is the show being held today ?) His car didn't make it.

This past month I had the T-Bird at Duncan's Auto Body. The drivers door has been out of line ever since I have the car. I have had several shops try to put it back in place, but no luck. Until I took the car to this shop. They fixed it and for a decent price. See Brian at Duncan. 610-395-2251
